## APCO Australasia welcomes new Corporate Partner – Airwave Solutions

**30 June 2011:** APCO Australasia welcomes Airwave Solutions, our newest corporate partner.

Airwave Solutions is a leading provider of integrated, secure and resilient mission critical communications. We collaborate with our customers to serve the needs of Australasia's public safety community, enabling them to build safer communities, increase operational effectiveness and improve employee and volunteer safety.

Our primary focus is the construction, funding and operation of state-wide government radio networks. Other specialist services include Consultancy, Design, Network Build, Migration, Training, Networking Operating and Service Management. Airwave Solutions in Australasia is a partnership between Broadcast Australia – a nationwide critical communications network operator - and UK based Airwave Solutions.

APCO Australasia is the dominant public safety professional body in the Asia-Pacific region and represents and connects public safety professionals and industry. Our Corporate Partner Program offers an effective means of improving public awareness and providing opportunities to share expertise, resources and experiences.

Thanks to the support of Airwave Solutions, APCO Australasia will be sending a P25 User Group representative to the USA to accompany Geoff Spring, Executive Chairman of APCO Australasia to present on the use of P25 technology in Australia and New Zealand at the P25 Steering Committee in August.

"APCO Australasia welcomes Airwave Solutions to the Corporate Partner Program," said Des Bahr, Chief Executive Officer of APCO Australasia.
